- **Databases:** SQL, PostgreSQL, MongoDB, SQLite, Firebase
- **UI/UX & Design:** Tailwind CSS, Bootstrap, Figma

WORK EXPERIENCE

I am a fresher with a passion for learning and a strong foundation in software development. Although I don't have industry experience yet, I am eager to take on new challenges and contribute to real-world projects.

Currently, I have no industry experience to showcase here. However, I have been actively working on various personal and academic projects, which have helped me build a solid understanding of the technologies and tools I work with

PROJECTS

- **PassGuard:** PassGuard is a modern and secure password manager designed to help you store and manage your passwords safely. With a user-friendly interface and robust features, PassGuard ensures your sensitive information is kept private and secure.
- **MindHaven:** MindHaven is a meditation app designed to help you find peace and balance. With guided sessions, calming music, and personalized meditation plans, it helps reduce stress and improve focus, creating a haven for your mind in the chaos of daily life.
- **HireLens:** HireLens is an AI-powered platform designed to perfect your job interview skills. It offers personalized mock interviews, real-time feedback, and expert insights to help you prepare for any interview with confidence and precision, ensuring you're ready for success.
